

Swimming Pool/Spa Removal Notification

This form is used to advise the Town of Cambridge Swimming Pool Inspector of the removal of a private swimming pool or spa.

Please note: An inspector from the Town will conduct a site inspection to confirm that the swimming pool/spa has been removed. If you wish to be present when the inspection is carried out, it will be necessary for you to contact the Town within seven days of submitting this notification form. Please call telephone 9347 6000 to arrange an inspection.

If you remove a below ground pool or spa the Town will require a compaction certificate which should be obtained from a licensed structural engineer if you wish to build on that site. The certificate will form part of the required information for a building licence application. Please contact the Town on 9347 6000 for further information on building requirements.
