# GALUP (LAKE MONGER) MASTERPLAN 2024-2034

## PLAN KEY

1. Increase revegetation in lake buffer areas to improve water quality
2. Street tree planting on Gregory Street verges
3. Solid barrier to Freeway to stop turtles and other wildlife from entering
4. Install bird, bat and possum boxes and bee insect hotels (indicative)
5. Install interpretive signage to key locations about site history
6. Install notice boards at key locations
7. Provide dog agility equipment and raise turf levels to address puddling
8. Implement the foreshore landscape concept
9. Install accessible boardwalks to lake edge
10. Improve pedestrian access across Lake Monger Drive
11. Dodd Street Playground upgrades including all-abilities and sensory play
12. Investigate the installation of conservation fencing to the eastern lake edge to protect flora and fauna

## LEGEND

- Irrigated turf  Replace irrigation with a more efficient system
- Non irrigated turf
- Artificial turf (sports spaces)
- Natural and revegetation areas or similar
- Existing tree canopy (indicative)
- Strategic tree planting to provide shade for park users
- Solid barrier to Freeway to stop turtles and other wildlife from entering

General Notes

Plan is indicative only and all proposed elements are subject to further consultation and design

Plan is to be read in conjunction with Galup (Lake Monger) Management Plan 2024-2034 - Implementation Program
